TONOPAH, NEVADA, MONDAY EVENING, JANUARY 9, 1922.

PRICE TEN CENTS

COLLINS SAYS

WORK IS WHAT

IS REQUIRED

(By Associated Press)

DUBLIN, Jan. 9.—The motion to re-elect De Valera president of the Irish republic was defeated in Dail by 58 to 60.

DUBLIN, Jan. 9.—Dail Eireann adjourned at 1:30 o'clock today until 3:30, with the motion for re-election of De Valera, who handed in his resignation when the deputies reconvened this morning, still under discussion. After the nomination of De Valera for the presidency, Michael Collins said he would not object to the re-election of President De Valera, but that if De Valera were re-elected the people would turn out Dail, as Dail would be the laughing stock of the world.

Collins pointed out that Dail was now faced with the problem of taking over the government from the British, and suggested the formation of a committee whose membership would be chosen from both sides to the controversy. To keep peace and work, not talk, is now required, he said.

Arthur Griffith was nominated by Michael Collins in Dail Eireann for the office of chief executive to form a provisional government for Ireland.

REARGUMENT

IS ORDERED IN

RAILWAY CASE

(By Associated Press)

WASHINGTON, D. C., Jan. 9.—The supreme court today ordered a reargument of the case brought by the government against the Southern Pacific and Central Pacific companies. The case involves the question of ownership and control of the Central Pacific by the Southern Pacific. The case was set for argument March 13.

COUNTRY IS

USING TIMBER

TOO RAPIDLY

(By Associated Press)

WASHINGTON, D. C., Jan. 9.—Timber in the United States is being consumed four times as rapidly as it is being grown, Chief Forester Greeley told the house agricultural committee today in urging federal legislation designed to conserve the country's forests.

PEPPER WILL

BE SUCCESSOR

TO PENROSE

(By Associated Press)

PHILADELPHIA, Pa., Jan. 9.—George Wharton Pepper, Philadelphia lawyer, was appointed United States senator today by Governor Sprout to succeed the late Boies Penrose. Under the law the appointment stands until a successor is selected at the November election.

WEEKLY WEATHER FORECAST

Southern Rocky Mountain and Plateau Regions: Generally fair, but local rains or snows are probable on Tuesday or Thursday, normal temperature.

Pacific States: Considerable cloudiness and occasional rains, normal temperature.

FOUR DEATHS

FROM LIQUOR

IN CHICAGO

(By Associated Press)

CHICAGO, Jan. 9.—Four moonshine deaths within 18 hours, the last being a murder, has resulted in Coroner Hoffman asking Chief of Police Fitzmorris to instruct the police department that in each death where there is a possibility of illegal liquor having been the leading cause, a special search should be made for the seller and he should be arrested. "Moonshiners must answer for murder," the coroner said.

NEWBERRY IS

POSITIVE OF

INNOCENCE

(By Associated Press)

WASHINGTON, D. C., Jan. 9.—A sweeping declaration of innocence was made today by Senator Newberry in the senate. Taking the floor for his defense in the ouster proceedings brought by Henry Ford, Newberry emphatically denied personal knowledge of collection or expenditure of the large campaign fund spent in his behalf.

"As God is my witness, I am not to this day and hour conscious of having done, in connection either with the primary campaign or the election of 1918 in Michigan, a single act that was or is unlawful, dishonorable or corrupt, and this I say to the senate without reservation or qualification," he said.

Walking into the senate chamber while Senator Trammell was urging that he be ousted, Newberry remained at his desk for a little over an hour, leaving while Senator Edge was beginning a speech in his defense. Newberry stood his ground, and seemed perfectly at ease while Senator Walsh of Montana, like a trial lawyer, was cross-examining him. There was no applause during or at the close of his speech, and there was just one handclap in the gallery as Newberry sat down.

ULSTER WILL

PROBABLY NOT

ENTER STATE

(By Associated Press)

LONDON, Jan. 9.—Ulster's determination not to enter the Irish free state has been strengthened, says the Belfast correspondent of the Daily Mail, by the example of "southern mentality" and "southern methods" given in Dail Eireann during its discussion of the peace treaty.

SECOND TRIAL

FOR ARBUCKLE

ON WEDNESDAY

(By Associated Press)

SAN FRANCISCO, Cal., Jan. 9.—The second manslaughter trial of Fatty Arbuckle, charged with having caused the death of Virginia Rappe, will begin Wednesday, as a result of today's proceedings in superior court.

SCHOOLS REOPEN

The Tonopah high and grade schools reopened this morning after a two weeks' Christmas holiday, with a total enrollment of 692, an increase of 12 over the attendance for the last term. All of the instructors who left Tonopah for their vacations have returned to their duties.

This afternoon the school was treated to a concert given by the De Willo Concert company in the gymnasium of the school. All of the auditors expressed themselves as highly pleased with the attraction which will be given in its entirety at Elks' home tonight.

72 PER CENT

OF SILVER IS

FROM TONOPAH

The value of the gold, silver, copper and lead mined in Nevada decreased from \$33,879,512 in 1920 to about \$12,310,000 in 1921, according to preliminary figures compiled by V. C. Helms, of the United States geological survey, department of the interior. The decrease was general, but the output of copper and lead was unusually small, as a result of the poor market and lower price for those metals. No zinc ore was marketed.

The output of gold in Nevada decreased from \$3,566,728 in 1920 to about \$3,340,000 in 1921. The output of gold from the Tonopah district decreased from \$1,056,986 in 1920 to about \$982,000 in 1921, on account of a labor strike which interrupted operations from April to August. The production of the Goldfield district decreased from \$155,735 in 1920 to about \$109,750 in 1921. The Elko mine at Jarbridge was the largest producer of gold in 1921, and the Tonopah Belmont and West End mines ranked next. The gold produced from copper ore was much less than in 1920 on account of the closing of the mill of the Nevada Consolidated Copper company in April. Other mines that made an output of gold valued at more than \$100,000 each were the Consolidated, Virginia, Round Mountain, Tonopah Extension, Rochester Silver, Tonopah

(Continued on Page Three)

TONOPAH WILL

GET AIRPLANE

SERVICE SOON

After July 1, Tonopah is to be in daily communication with San Francisco by airplane, if the plans of a newly formed aerial transportation company of the coast city are carried to completion. According to today's announcement, a schedule of four hours will be maintained between the Golden Gate and Nye county's capital.

The Aircraft Transportation company, of which David G. Re Viley is general manager, is the pioneer company in the field of commercial air travel between Tonopah and the coast. It is planning on connecting San Francisco with many coast points as well as points west of the Sierras. Los Angeles is to have a twice-daily service consuming three and a half hours, and it is also planned to use seaplanes for a two and a half hours' trip from San Francisco to Eureka, California.

The planes, which are nearing completion in New York, will have a capacity of 30 persons, 750 pounds of personal baggage and 1000 pounds of express, with a crew of two men. They will be American ships of the Remington-Burnell type, all metal and equipped with two 600-horse-power motors capable of a speed in excess of 125 miles an hour. A schedule of fares will be announced later, according to the management.

ESTEEMED CITIZEN

CROSSES THE DIVIDE

Yesterday afternoon James Doherty, a respected resident of Tonopah since 1903, solved the Great Mystery, and went to meet his Maker. Deceased had been a sufferer from tuberculosis for the past several years, and up to a short time ago had been employed as watchman at the New California Tonopah Mining company. During his residence of 17 years in Tonopah, coming here from Tuscarora, Nevada, he had been employed in the principal mines of this district. He was aged 63 years and was born in Scotland, and leaves to mourn his demise a wife and four children, one girl and three boys, and a brother, Hugh Doherty, all of Tonopah. The funeral will take place Wednesday morning from the Catholic church, interment at the local cemetery.

In the demise of James Doherty Tonopah loses one of its most honored and respected citizens. He was square in all his dealings with his fellow man and the sympathy of the community is extended to the bereaved wife and family.

TESTS MADE

OF HYDRANTS

AND PRESSURE

J. B. Williams, representative of the White company, manufacturers of fire fighting equipment, yesterday made a very exhaustive test of the water mains and water pressure of the Tonopah water system, and has come to the conclusion that with the high-pressure system that is already installed in Tonopah, an auxiliary pumping service, such as would be given by a high-power fire engine, is hardly necessary to increase the efficiency of the present system.

Mr. Williams has made a practice of following the system employed by the fire underwriters in inspecting pressures and size of water mains before recommending the type of apparatus to be used by towns in fighting fires. It is found that with small fire mains where an engine of large pumping capacity is attached, the mains are liable to buckle, owing to the great force exerted and the vacuum thus created. Only as much water can be secured from a small main regardless of the amount of pumping force exerted, and regardless of the number of streams that are attached to the same main, the force cannot be increased.

Pressures of the various hydrants in town were tested yesterday, with the following results: Natural pressure from hydrant at depot, 135 pounds; nozzle pressure 45 pounds; Quist hydrant 130 pounds; nozzle 33 pounds; Mixpah hotel hydrant 115 pounds; nozzle 90 pounds; Floyd hydrant 103 pounds; nozzle 54 pounds; Florence avenue hydrant 100 pounds; nozzle 50 pounds; McChugh and Central streets hydrant 95 pounds; nozzle 43 pounds; Arizona and Bryan streets hydrant 72 pounds; nozzle 60 pounds.

In talking further concerning the fighting of fires, Mr. Williams stated that 92 per cent of all fires are put out by chemicals and 94 per cent with chemicals and one line of hose, corroborating the statement made repeatedly that it is the first few minutes of a fire that count.

LEAVES TO ATTEND

RENO RATE HEARING

In order that the Reno chamber of commerce may be advised correctly of the sentiment of Tonopah in the discussion of the new freight rates that are to be effective shortly in this territory, Grant Crumley, accompanied by his wife, left for Reno this morning to give the Reno chamber some firsthand information of the attitude of the southern Nevada district towards the protest that was made to the change in rates affecting Tonopah.

The discussion will be participated in by representatives of the Reno chamber, and representatives from other districts affected by the rate changes, Mr. Crumley being one of this number.

MASONS INSTALL OFFICERS

The following officers were installed by Tonopah lodge No. 28, F. & A. M., for the ensuing year, last Friday evening:

William R. Bozarth, worshipful master; Hugh P. Hard, senior warden; Otto Falk, junior warden; Geo. C. Spitzer, treasurer; J. E. Peck, secretary; J. P. Hart, junior deacon; E. R. Bennett, junior deacon; James Currie, marshal; Scott Jameson, chaplain; George F. Stott, senior steward; Charles R. Reilly, junior steward; R. B. Davis, tyler.

TONOPAH TEACHERS ARE

BACK FROM VACATIONS

Five lady teachers of the Tonopah public schools who spent the Yuletide holidays with their parents at their homes in California and Nevada, returned this morning. They were Miss Wilma Snowball, Knights Landing, California; the Misses Gertrude Webb, Gladys Dunkle, Ross Harris, Reno, Nevada; Miss Myrtle Brown, Silver City, Nevada, and Miss June Wimer, Arcadia, California.

SON IS BORN

Yesterday afternoon the home of Warren Hislop, Tonopah transfer man, was gladdened by the arrival of an eight-pound boy. This is the first arrival at the Hislop home, and the mother and son are reported as doing well.

CONDITIONS

IN TONOPAH

ARE VERY BAD

There is no question but that Governor Boyle was right when he said conditions in Tonopah were very bad. Not only are they very bad, but probably worse than the governor has any reason to expect.

It has just been discovered that an attempt has been made to fire the Mine Operators' hospital. Waste and debris saturated with oil was set on fire and thrown upon the porch of the building, while a nurse and the watchman had gone to the front of the hospital to close some windows in rooms that had been fumigated and were being aired during the day. On returning to the back of the building they saw the blaze, immediately seized a fire extinguisher and subdued the flames.

Four men at this time were still in the hospital recovering from injuries they received at the fire which destroyed the "Big Ship." Other public places have been threatened with destruction, and also some of the business houses, which are now being guarded with men with shotguns loaded with buckshot, and it is to be hoped that the cowardly curs who would cause destruction by such methods will be apprehended or killed with bullets.

It is safe to say that if the men are not killed outright that Tonopah will have a necktie party.

ANOTHER MINE

AT ROYSTON IS

READY TO SHIP

Ore is being encountered in such liberal quantities at the property of the Super Six Mining company at Royston that an early shipment of a carload is promised, according to the announcement of W. H. Wilson, who is actively interested in the development of this well-known Royston company.

The second shaft of the company is being sent down in good shape at the extreme east end line of its holdings, which adjoin the Golden Eagle claim, from which B. F. Betts and associates have a shipment ready to send forward to the smelters.

It has not definitely been decided by the Super Six company where the first shipment will be treated, but it most probably will be at Millers, owing to the amount that would be saved in freight charges more than offsetting the loss of the lead content, for which they would not receive payment.

MINES DOCTORS WILL

BE HERE TOMORROW

W. A. Sherlock, formerly agent for the Standard Oil company at Lovelock, accompanied by Mrs. Sherlock, arrived in Tonopah this morning to take over the duties of G. M. Rose as special agent for that company. Mr. Sherlock comes to Tonopah from a successful stay at Lovelock, being succeeded there by Hugh Donovan, who has been representing the big oil distributors at Goldfield.

Mr. Rose, the former Tonopah agent, has not as yet been assigned to his new territory, but will leave shortly for a temporary visit in Reno.

Mr. Rose will have been with the Standard Oil company for 25 years in June of this year, and since 1907 he has been special agent of the Tonopah office of the company. His departure from Tonopah will be regretted by his many friends and business acquaintances with whom he has been associated for so long a time.

MAY INCLUDE OTHERS

FOR FRENCH SAFETY

(By Associated Press)

CANNES, France, Jan. 9.—Lloyd George and Briand were on the point of agreeing on essential features of a pact for protection of France from possible German aggression, which, the British say, will not be an alliance, but a sort of general accord, in which Belgium and Italy will be included, it was declared today in well informed circles.

MCUMBER TO

HEAD FINANCE

COMMITTEE

(By Associated Press)

WASHINGTON, D. C., Jan. 9.—Senator McCumber of North Dakota was today selected by the committee on committees as chairman of the senate finance committee to succeed the late Boies Penrose. Frelinghuysen, of New Jersey, was selected to fill the vacancy on the finance committee.

COAL SEAM OF

GREAT WIDTH

IN AUSTRALIA

(By Associated Press)

SYDNEY, N. S. W., Jan. 9.—What is declared to be the thickest seam of black coal discovered in the world is being exploited at Blair Athol, Queensland, according to reports reaching here. The maximum thickness is 50 feet and the seam is entirely free from any clay bands.

Professor S. R. Edgeworth Davis, who returned from Blair Athol, said that under the present method of working it is only possible to exploit a third of the coal in the field, an amount estimated at 85,000,000 tons, and that 173,000,000 tons will be wasted. The chief difficulty in mining and marketing the coal is the fact that the mine is 280 miles from the nearest seaport, although Sir Edgeworth said that the coal is very suitable for raising steam on land and sea.

WILL MAKE DECISION

ON AIRCRAFT LATER

(By Associated Press)

WASHINGTON, D. C., Jan. 9.—Limitation of development or use of aircraft is impossible at this time, the five-power armament committee decided today. It adopted a resolution, however, providing for an international commission to study the aircraft question with a view to future limitation.

Merchant ships of over 10,000 tons displacement would not be available for conversion into auxiliary naval craft in time of war, it was decided.

VIRGINIA AFTER DENBY

FOR GAME VIOLATION

(By Associated Press)

RICHMOND, Va., Jan. 9.—Secretary Denby was today asked in a formal inquiry from the state commissioner of game and fisheries to explain why he hunted recently in Virginia without a license. The inquiry was accompanied by a newspaper clipping declaring the secretary had enjoyed a successful hunt from his farm in Stafford county, and had taken back to Washington a "fine lot of quail and ducks, some of them for President Harding."

NEW AGENT FOR

STANDARD OIL CO.

Miners of the Tonopah district who were unable to avail themselves of the opportunity of receiving chest examinations conducted by the doctors of the United States bureau of mines during December, will have the chance to be examined this week. Dr. C. E. Kindall, accompanied by his assistant, Thomas Jones, will arrive in Tonopah Tuesday to carry on a series of examinations of those to whom it was impossible to give them during their last visit.

All men desirous of being examined are requested to meet with Dr. Kindall tomorrow evening at the offices upstairs over the police station and secure appointments at as early a date as possible to enable the officials to complete their work here in a minimum of time.

RUSSIANS ACCEPT

CONFERENCE CALL

(By Associated Press)

LONDON, Jan. 9.—The Russian soviet government has accepted the invitation to attend a conference for coping with the problem of European economics, says an Exchange Telegraph dispatch from Cannes.

HARVEY HAS

CLOSE ESCAPE

IN ACCIDENT

(By Associated Press)

CANNES, Jan. 9.—George Harvey, American ambassador to Great Britain, narrowly escaped death here in an automobile accident today. Accompanied by Richard Crane, former American minister to Czechoslovakia, in whose car he was riding, and Wickham Stood, editor of the London Times, Harvey was on his way to a game of golf. The axle of the machine broke and Harvey was thrown out, landing heavily on the road. He was able to rise, but was rushed back to the hotel in a dazed condition. Physicians expressed the opinion that he will be confined to his bed for several days and should not attend to any official duties.

(By Associated Press)

WASHINGTON, D. C., Jan. 9.—Ambassador Harvey has cabled the state department from Cannes that he had been only slightly injured, but had requested Ambassador Herrick to act as American observer temporarily at the Cannes conference.

OBJECTS TO

TREATY IN ITS

PRESENT FORM

(By Associated Press)

SAN FRANCISCO, Cal., Jan. 9.—Senator Hiram Johnson in a statement calls attention to what he as sorts are ambiguities in the four-power treaty which has grown out of the armament conference, and warns against inclusion of the United States in an alliance which he believes may pledge the country to interfere in future international controversies. The statement was given out as a result of a letter Johnson received from a correspondent who commented on a previous communication issued by the senator.

BRITISH DELEGATE

POSTPONES SAILING

(By Associated Press)

WASHINGTON, D. C., Jan. 9.—Arthur J. Balfour, head of the British arms delegation, again changed his plans for returning home, cancelling his passage on the steamer Olympic, which sails Saturday, and reserving accommodations on the steamship George Washington, which is due to leave New York January 17. The British delegation spokesman, in making the announcement, said it was the expectation in British quarters that a plenary session of the conference would be held Thursday to complete the naval treaty and another session Saturday probably would be the last of the conference.

RAILROAD TAX IN

DAKOTA IS ILLEGAL

(By Associated Press)

WASHINGTON, D. C., Jan. 9.—Excise taxes imposed by North Dakota upon railroads within the state were today held by the supreme court to be invalid.
